

COMING THIS FALL, HOUSE OF ELECTRICAL BECOMES A RITTAL CERTIFIED MODIFICATION CENTER

MODIFIED ENCLOSURES

— IN 3 DAYS OR LESS! —

RITTAL'S PERFOREX MACHINING CENTER
REDUCES LEAD TIMES AND IN-HOUSE LABOUR COSTS

- Quick conversion of your DXF and CAD drawings
- Drilling, tapping & milling of enclosures is completely automated in a single cycle
- Holes, threads and cutouts can be created on mounting plates, doors, sidewalls, and the enclosure housing
- Any program setting can be saved for future, identical jobs, speeding up work-flow even more
- All standard materials can be machined, including steel, stainless steel, aluminum, various plastics, fiberglass and copper enclosure housing
